the software will require you to enter your model number for this printer. the program will set up the printers in the factory default configuration. once you press the submit button, the printer will be reset back to its default configuration. you should press ok to accept this settings and then press the exit button to return to your regular computer tasks. the settings for the epson l3110 printer are grouped in to two categories. there are the basic settings that you will find on the control panel for this printer that will perform a wide range of actions on the printer. this is then followed by the advanced settings that are not available on the control panel but that allow for more details and flexibility. hello there. so here is the problem. i had the epson l3110 a couple years back. everything was fine. i had it printing out amazing stuff like boring things to show my friends. i had it up to about 2 years before i discovered it was giving my paper jams. i unplugged it and everything was fine again. so i had it for another year and it began printing again, except the paper jams came back. i took out the cartridge and everything was fine except when i tried to reinstall, the ink wouldn't

print. so i put the cartridge back in and put a brand new one in. now its printing only 1 page. no matter what it is printing on. this means i got a new I3110. it is amazing as i have had this issue for a while and was turning the printer off and on until i got a new I3110. so now i have the same problems over again. i don't know why this happens, maybe i have a leak somewhere. anyways, any help would be appreciated. thanks.
